Volunteers are always needed! Commissions and organizations are always
open to creative ideas for conserving Woodbury’s history and environment.

If you can maintain a trail, monitor a river or stream, do property research,
help with historic building maintenance, inspect open space properties, apply
for grants, help at an event, stuff envelopes ... contact the appropriate com-
mision or organization and thanks.

Thanks to the following volunteers for production assistance and advice:
Linda Casper, Susan Cheatham, Ingrid Davis, Sharon Feeley, Marion Griswold,
Carol Haskins, Dick Leavenworth, Judi Lynch, Tim MacSweeney, Sarah Martin,
Arthur Milnor and Vincent Tomkalski.
WELCOME to the guide to Walking in Woodbury. In this brochure you’ll find an overall map showing the location of recommended sites as well as more detailed maps of each area. The locations are either Town or Flanders Nature Center and Land Trust properties. All are open to the public.

Our town offers unique opportunities for walkers and hikers. Main Street (US Rt. 6) sidewalks line the Historic Districts where many buildings, both public and private, are listed on the National Register of Historic Places. Here you will also find the opportunity for a meal at a local eatery or visits to local antiques dealers or gift shops.

Side streets link to three Town parks where walkers and hikers can enjoy the serenity of the Pomperaug River or climb Orenaug Park’s forested trail for views from the observation tower or along the Park’s 100 ft. cliffs.

Ample parking is available at the Town government complex off Main Street, opposite Rt. 317. Walking combinations are endless and can be tailored to any mood, ability, interest or block of time.

Ready for more adventure? Explore Nonnewaug Falls, the Flanders Van Vleck Farm Sanctuary or the Whittemore Sanctuary. Each of these is a destination with its own history and unique vistas.

We extend a warm welcome to enjoy Woodbury’s history and natural resources. The maps in this brochure will guide you.

Gerald Stomski
First Selectman
Town of Woodbury, Connecticut

Arthur Milnor
Executive Director
Flanders Nature Center and Land Trust

Please Note: Parks are open dawn to dusk. Dog companions must be leashed. Maps are not to scale.

Thanks to Woodbury’s Conservation Commission, its Open Space and Nonnewaug Falls committees, the Parks and Recreation Commission, the Historic District Commission and the Land Use office for help in preparing this brochure.

Walk Woodbury Committee Rev.Spring 2010

Flanders Nature Center and Land Trust

VAN VLECK FARM SANCTUARY

Trail Information: 7 color-coded trails, distance/difficulty vary. Maps at kiosk on site.

Among the resources that Flanders manages is the Van Vleck Farm Sanctuary, an evocative landscape that includes many architecturally significant buildings, including an 18th century farmhouse and barns, a historic post-and-beam studio, and a new post-and-beam sugar house. Dry-laid stone walls are among the features defining this pastoral landscape. Located at the corner of Flanders and Church Hill Roads, this Sanctuary is the main teaching campus of the Nature Center and includes many hiking trails through forestland, fields, meadows, ponds, streams, and an award winning Botany Trail.
In 1999, Flanders acquired the spectacular Whittemore Sanctuary, a 686 acre tract of land located off Rt. 64 in Woodbury. For the last 40 years, the Nature Center has managed the property, using it to support its regional recreational, educational and conservation goals. The land is a community treasure made up of a large block of contiguous, unfragmented forest land with important ecological considerations. It features a bog, a fabulous grove of white pine, and one of the few stands of regenerated 20 year old oak trees in the state. Hike around the miles of managed trails to enjoy these features.
The Hollow

Trail Information: Rating: Flat, Easy
Distance: 1.0 mile loop from park entrance to river trail and back.

Along the Park’s southwest edge, this easy, flat trail follows the winding Pomperaug River and its bordering wetlands. In the spring listen for spring peepers and wood frogs breeding in vernal pools. Look for trout lilies, spring beauties and other flood plain wildflowers. On the far side of the river Castle Rock rises steeply. The Town’s multi-purpose park, The Hollow includes sports fields, a volleyball court, a covered picnic pavilion, a playground, swimming pond and a seasonal farmers’ market. Cross country ski or snow shoe in the winter. Contact Parks and Recreation for information.

Nonnewaug Falls

Trail Information: Rating: Hills, Moderate
Distance: 0.4 miles from parking area to the falls

The Nonnewaug Falls Preserve can be found in the northeast corner of Woodbury. From the parking by the gate continue to the end of Falls Rd, the waterfalls are located at the end of a path into the hemlocks, south of two ancient oak trees of great size. Nestled in a hemlock grove, Nonnewaug Falls has long been known as a place of great beauty. For some 350 years, its name recalls the Sachem Nonnewaug. The late Harold Leever donated the property to the town so that all could enjoy the beauty and solace of this natural treasure.
**Distance:** Main Street sidewalks—2.5 miles one way

The following places of historic interest are shown on the map: 1) The Glebe House, 2) Jabez Bacon house 3) Hurd House 4) Flower shop that was a blacksmith shop 5) One Room Schoolhouse, 6) Masonic Temple, 7) Civil War Monument on Cannon Green, 8) Old Town Hall, 9) Archives Building (formerly town clerk’s office), 10) First Congregational Church with the original town clock in the steeple. More information is available at the Woodbury Library or the Glebe House.

**Historic District Sidewalks**

---

**Three Rivers Park**

**Trail Information: Rating: Flat, Easy**

**Distance:** 1.4 miles from Jack’s Bridge Road parking to Judson Avenue and back.

The Town’s newest park is a corridor between a farm field and the confluence of two rivers, the Weekeepeemee and the Nonnewaug, to form the Pomperaug River. The Pomperaug River watershed and its underground aquifers are the drinking water source for residents of Bethlehem, Woodbury, Southbury and portions of adjoining towns. The U.S. Geological Survey (USGS) maintains a weather station and gage on Jack’s Bridge that monitors flow rate and water level of the Weekeepeemee. Link to real-time gage data for this and 2 other gages in the watershed at the Pomperaug River Watershed Coalition’s website www.pomperaug.org.
Town of Woodbury, Connecticut

This is the 350th anniversary of Woodbury. The land was first acquired from the Pootatuck Indians in 1659. The Pomperaug River Valley was settled by families from Stratford and recognized as a town in 1672. The town boundaries have changed significantly over the years as other towns were spun off from the original tract. There are now about 9000 people living in town. Farming has a long tradition in town and remains an integral part of daily life. The town retains a rural characteristic which is highly valued by its residents.
